Zaid Shaikh

shaikhzaid2@gmail.com

Objective: Software engineer with 3+ years of professional experience specializing in distributed systems and cloud computing, eager to leverage expertise in designing innovative technologies for Amazon Music's immersive audio entertainment service. Excited to collaborate with cross-disciplinary teams and drive fundamental changes in the Music Personalization space.

Professional Experience:

Senior Software Engineer, InnovateTech Solutions, Seattle, WA January 2019 - Present

- Led cross-disciplinary teams in developing cutting-edge software solutions for diverse projects.
- Designed and implemented scalable technologies in large distributed computing environments, ensuring reliability and performance.
- Spearheaded fundamental industry changes through the adoption of innovative technologies.
- Developed solutions for distributed systems, optimizing scalability and speed.

Software Developer, CodeCrafters Inc., Seattle, WA July 2016 - December 2018

- Contributed to the design and development of software systems, emphasizing reliability and scalability.
- Participated in all aspects of the software development lifecycle, including coding standards, code reviews,
and testing.
- Supported source control management and build processes to maintain efficient development operations.

Education:

Bachelor of Science in Computer Science
University of Washington, Seattle, WA Graduated: May 2016

Skills:

- Programming Languages: Proficient in Java, Python, and C++
- Distributed Computing: Extensive experience with cloud platforms like AWS, working with distributed systems
- Software Development: Strong understanding of coding standards, code reviews, and testing methodologies
- Machine Learning: Familiarity with machine learning algorithms and their applications in software development

Certifications:

- AWS Certified Developer – Associate
- AWS Certified Solutions Architect – Associate
